

For parents and students (grades 5-12)

THE TEEN BRAIN: Still Under Construction!

Dr. Dewey doesn't preach. He simply shows parents and teens what he sees everyday through his research at the Feinstein Institute for Medical Research at North Shore LIJ Hospital. He speaks candidly about the effect alcohol, marijuana and drugs have on the teen brain.

Marijuana is especially harmful to the developing brain

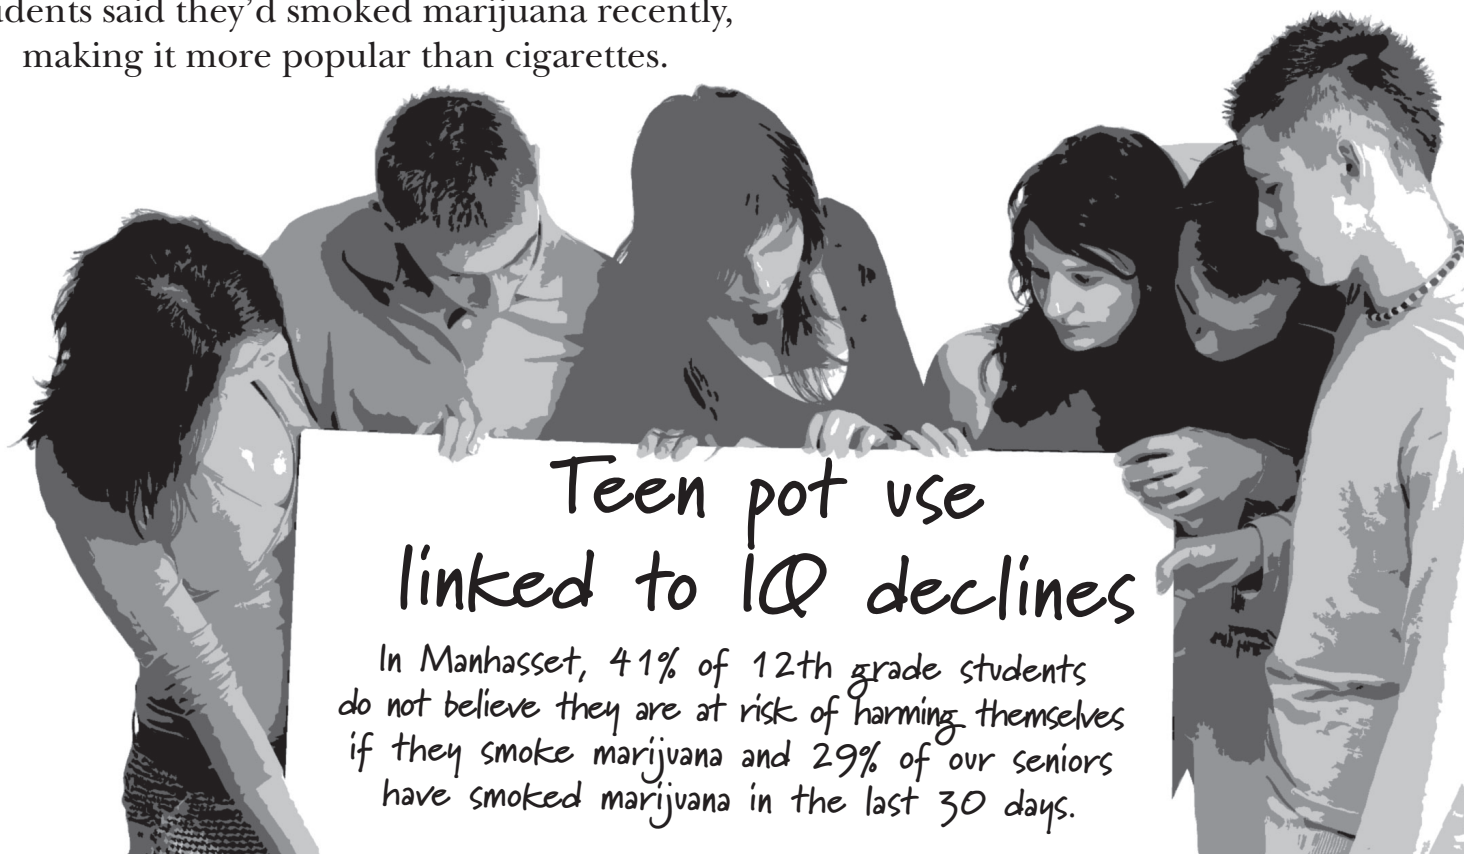

In the United States, 23 percent of high school students said they'd smoked marijuana recently, making it more popular than cigarettes.
